## VOLLEYBALL TOURNAMENT

*Speed School Student Council hosted a Volleyball Tournament over the summer. We wanted to give students the chance to take their mind off summer classes and co-op.*

## LEADERSHIP ADVANTAGE

*Leadership Advantage (LA) is a four-day program for incoming freshman majoring in engineering at UofL. LA was made up of 35 participants, 12 facilitators, and 3 coordinators. If interested in helping with LA 2020, please reach out to [uoflleadershipadvantage@gmail.com](mailto:uoflleadershipadvantage@gmail.com).*

## ASCE

*The American Society of Civil Engineers 2019 Construction Institutes: Student Days Competition was a 5 day event that took place July 19-23. Three Speed Students, Alex Delgado Beebe, Ryn Kalbfleisch, and Sophie Lipomanis, were selected to compete. Sophie's team won 2nd place overall. Alex and Sophie were both honored as best speakers and will be going to National ASCE Construcion Institute 2020.*

## BROWN-FORMAN ENGINEERING ACADEMY

*The Brown-Forman Engineering Academy was held from July 22nd - August 1st, allowing 24 incoming freshman to have an introduction to the college experience and calculus. The students toured FirstBuild, the Rapid Prototyping Center, and many other places to get an insight on how engineering is involved in the workplace. We cannot wait for these students to join the speed School family.*

## ROCKET TEAM

*River City Rocketry competed in the ESRA international competition, the Spaceport America Cup, against 94 other teams. The rocket, named Justify, stood over 13ft tall. The rocket held a UAV in it's payload that was released at the rocket's peak. The team took home the James Barrowman Flight Dynamics award and won 1st place in the Space Dynamics Laboratory Payload Challenge. If interested in the RCR team apply at [rivercityrocketry.com](http://rivercityrocketry.com).*

## STUDENT OF THE SUMMER

*Benjamin Mitchell is the Student of the Summer. He is a Junior Mechanical Engineering Student who co-ops at Material Handling System. One of his nominators said, "Ben puts his heart into everything he does, and I've never met any student more dedicated than him! His enthusiasm is contagious, and I wish more students could be as active in engineering like him."*
